Minutes

1. Welcome and adoption of the agenda
The agenda was adopted, and no further items were added.

Welcome to Michael Søberg Christiansen (Corporate Vice President Head of Global Regulatory Affairs Novo Nordisk), a new SC member, and Thalia Marie Blicher (Medical Officer DKMA, MD, PhD Danish Member of CHMP at the European Medicines Agency), a new SAB member.

2. CORS update
Update about the overview of CORS' current and latest external and internal funding and projects. Introducing the core CORS group members.
3. Evaluation CORS conference 2022

- a. Presentation of the Conference evaluation, based on participant survey. We got very good feedback from the participants. The conference was a full success.
 - b. Discussion if a yearly conference at that level would be necessary and beneficial to justify the time-consuming organization. SAB consider the annual conference as a valued outreach activity, although it recognises that it require a lot of resources for CORS to organize. Suggestions for getting more help with the preparation and organization by involving the PhD/Postdoc, and SAB more actively in the organization work, and in applying of conference funding
4. SAB round table discussion on: Patient involvement in Drug Development
Short intro on the topic followed by a roundtable discussion about the relevance of the topic for CORS, stakeholder interest in the topic and questions/problems of relevance.
5. AOB
No items were added.
